

NORCOL CUSTOM EXTERIORS

VINYL & ALUMINUM SUPPLY

Serving the Georgian Bay area for over 40 years!!

What are Porch/Entrance Enclosures?

Many homes have been built with a roof or second floor sheltering the main entrance. These porch areas typically have one or more openings with either a square or curved top.

Entrance enclosures are custom fabricated glass panels and doors made from 1 3/4" aluminum rail specifically designed to fit into these existing openings. If your home does not have an alcove, you can still have an enclosure! We are able to provide flat and curved roofs and angled sidewalls and arched or curved top window panels!

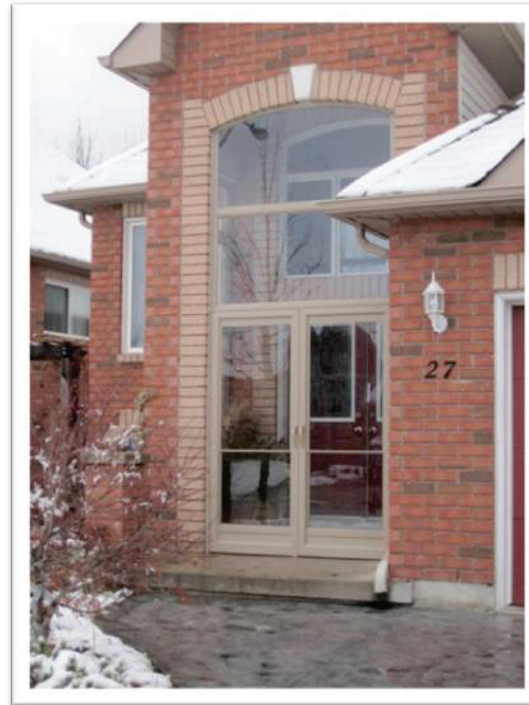

Available in white, black, brown, ivory, clay, grey and sandalwood
