Blended

Nature is full of rich tones, hues and shades — subtle variations in pigment that create a sense of depth and complexity. By combining many accent colors, our blended color collection renders the beautiful intricacies of the natural world.

Built in the 1950s and resurfaced several times, the cedar shakes on warehouse #4 at Mid-Cape in Orleans, MA were showing their age. The harsh weather of the Cape had taken its toll. Managers chose NovikShake RS8 (featured on pages 4-5) to resurface the historic building. The authenticity of NovikShake RS8 in Basalt was a driving factor, as it seamlessly matched regional styles. Beautiful and easy to install, it is impervious to moisture, will never rot or decay and requires virtually no maintenance.

NovikShake blended color collection recreates the rich look of natural cedar at its best and enhances the realistic appearance with perfectly layered colors.

nature's stunning complexity.

CONTACT

EASY
TO INSTALL

Complements all types of siding

The owner of this house in Frazee, MN wanted to replace old vinyl siding with fiber cement, but needed a solution that didn't have the same ground clearance requirements or related moisture and freeze-thaw damage issues. The solution was NovikStone, which is impervious to moisture and ideal for ground contact. The owner chose NovikStone SK in Smoke Gray for its beautiful, authentic look and ease of installation, and paired it with NovikShake RS8 in White as an accent. Novik shakes, stone and accents complement all cladding including fiber cement.

Complementary Products

Novik offers a full range of products to enhance a home or building's beauty, created with the same authentic refinement as our NovikShake and NovikStone products.

Novik offers a full range of must-have accessories to enhance the style and appearance of your home. Novik's decorative accessories are affordable and durable, yet elegant — the perfect finishing touch for any project.

NovikBlock

Novik mounting blocks will fit any siding in any color. They come with an exclusive lock-on system that will facilitate installation and adjust to any siding thickness perfectly, without any tricky, messy caulking. A must-have for a low-cost final touch.
