Prestige
Double 5" Dutchlap

This siding style adds charm and elegance to any home, it's no wonder why Prestige is so popular

Dutch lap siding is one of the more popular types of siding as it adds a classic element to any architectural design

11" wide panel simulating two 5" planks, results in a faster installation.

Profile Specification

Provincial

DOUBLE 5" VERTICAL

Instantly add curb appeal and visual interest to any project by choosing vertical siding

Stratford Vertical Siding & Soffit

Stratford's primary application is as a soffit panel, however, it can also be used as siding and can be installed horizontally, vertically or diagonally

No matter how it's used, it will add tremendous curb appeal to any home

Venting Strip
Provides continuous air flow allowing for superior ventilation under the soffit

Install **Horizontally** or **Vertically**

Profile Specification

Profile Specification

Hampton Shakes

Accent your home with rustic charm.

- Heavy duty 1/2" thickness, 30% thicker than competitive products.
- 7 7/8" wide and 4' long panels are perfect for accents or total coverage.
- Superior design allows for all nails to be hidden.

Trimboard

Enhance the beauty of any home design.

Woodbury Shakes

Available in Primed only

With the appearance and charm of authentic cedar shakes, Woodbury Staggered Shakes are the perfect accent for any home.

They are ready to mix and match with Naturetech siding and trims.

Woodbury Staggered Shakes are ready pre-primed for superior paint adhesion.

Wood Siding, reinvented.

All Naturetech™ siding profiles are available in an array of colors. Whether you want a traditional look with soft earth tones, or a contemporary style with bright, dramatic colors, the choice is yours.

*Not all profiles are available in all colors. Please contact your local KWP Sales Rep for product availability.

Our Unique Painting Process

At KWP, we take pride in delivering a low-maintenance, esthetically pleasing product. Our painting process plays a huge role in providing the authentic look of wood without any of the upkeep.

Here's our secret:

- A sealant is applied at the pressing of the panel, ensuring superior adhesion between our first coat of primer and the substrate.
- Next, we have our 3-coat painting process: 1 coat of primer and 2 top coats. We use an industrial exterior latex paint, formulated specifically for our application process.
- State-of-the-art temperature controlled drying equipments are used versus oven-baked. This is key to avoid damages to the paint film.

KWP Facts:

100% Recycled wood. FSC certified & eligible for LEED points!

Heavy duty 1/2" thickness - 30% thicker than competitive sidings.

Superior design allows for all nails to be hidden.

Resists termite damage and will not rot, crack or split.

Tru-Align™ interlock system ensures precise horizontal alignment.

AN ENHANCED EXPERIENCE

HOME Designer 2.0

LOVE THAT COLOR,
TRY IT ON YOUR HOME

Home Designer 2.0 is now easier to use, with the latest in visualization technology and an added **Professional Services Section** including **estimates, measurements and 3D models** for your next project.

Take a look at Home Designer 2.0 features:

Pro Service section: generating an accurate measurement report, a true to life visualization and a 3D interactive model, allowing you to quickly provide job estimates. (This service has an added cost).

Auto-recognition technology: Say "Adieu" to masking! Simply upload a picture of their project and the software will automatically detect the roof, siding, windows and doors for them. All that's left is selecting the products and the colors you want!

Refined selection editing: Unlike the previous version, you will be able to go back and fine-tune a selection with editing capabilities.

Curated Color Combinations: You will be able to select a color palette that features siding, trims and accent that perfectly complements each other.
